

**Fresh kitchen air.**

## Certified Ventless Hood

The UNOX steam condensing hood is an ideal solution for installing your BAKERTOP MIND.Maps™ PLUS oven in any point of your kitchen.

Within the hood a self-cleaning filter removes odours and latent heat from the fumes that are expelled through the oven chimney, without the need for maintenance or cleaning work on the filter. If food that is particularly rich in fat is cooked often, it is possible to install an activated carbon filter kit to further reduce odours, even when the door is opened. Choosing a UNOX ventless hood is an investment that will save you money.

It allows you to install your BAKERTOP MIND.Maps™ PLUS even without\* a ceiling canopy, or to prefilter the fumes and reduce maintenance on the centralised extraction system.

\*subject to the verification and approval from authorities and local regulations

## Waterless Hood

Whether your BAKERTOP MIND.Maps™ PLUS oven is installed inside your kitchen or in view at the centre of your shop, the waterless hood is the solution to filter odours and absorb the heat leaving the cooking chamber without using water. Designed to be elegant and functional, the waterless hood gives you the freedom to furnish your spaces in each of the settings in which the complete elimination of odours and aromas is not necessary.
