

Certified Ventless Hood

The UNOX steam condensing hood is an ideal solution for installing your BAKERLUX SHOP.Pro™ MASTER, TOUCH or LED oven anywhere in your shop, even far away from or without* a ceiling-mounted ventilation hood.

Inside is a self-cleaning filter which removes both the smells and the latent and perceptible heat from the fumes expelled by the vent, with no need to maintain or clean the filter.

UNOX hoods maintain the style and design of the oven itself, blending the combination into one strong, quiet and effective system.

*subject to verification and approval by authorities and local regulations

Waterless Hood

Ventless hoods must be connected to a source of water, but water pipes are not always available in all shops or departments.

The UNOX waterless hood for BAKERLUX SHOP.Pro™ is designed to satisfy this need, and is capable of condensing odours from bakery operations without the use of water.

The waterless hood can be installed on all versions of the BAKERLUX SHOP.Pro™ and requires no water to function.
